

Chapter

Human Population

1. Assertion (A) : All food chains begin with herbivores. SQP 2025

Reason (R) : Green plants are heterotrophs.

- (a) Assertion is True and Reason is False
- (b) Assertion is False and Reason is True
- (c) Both Assertion and Reason are True
- (d) Both Assertion and Reason are False

2. Birth rate is the number of live births per thousand persons in: MAIN 2024

- (a) 1 year
- (b) 2 years
- (c) 10 years
- (d) 20 years

3. The false statement about Cro-Magnon man is MAIN 2021

- (a) He walked erect and was swift.
- (b) His cranial cavity was less than Homo sapiens.
- (c) He was intelligent and cultured.
- (d) He started metal work, painting and farming

4. Identify a non-renewable natural resource that is overexploited due to increased population. MAIN 2023

- (a) Petroleum
- (b) Coal
- (c) Both (a) and (b)
- (d) Wind

5. Sterilization technique in males involving cutting and tying sperm duct. SQP 2021

6. The scientific study of human population. MAIN 2023
7. What are the causes of increased population in India? SQP 2023
8. ____ is the technical term used for the difference between the birth rate and death rate. SQP 2021
9. Population
10. Deforestation leads to _____. MAIN 2022
11. Usage of condom is a type of ____ method. SQP 2023
12. Mortality is the number of deaths per thousand of the population per decade. SQP 2021
13. Diaphragm is a contraceptive for females. MAIN 2021
14. What is induced abortion? SQP 2021
15. Rapid rise of population demands the use of nonconventional use of energy. Comment. SQP 2023
16. "Birth rate in India is very high." Mention Two reasons in support of the statement. MAIN 2024

Solution

1. Thus (d) is correct option.
2. Birth rate is the number of live births per thousand persons in: **(a) 1 year**
3. The false statement about Cro-Magnon man is: **(b) His cranial cavity was less than Homo sapiens**
4. A non-renewable natural resource overexploited due to increased population: **(c) Both (a) and (b)**
5. Vasectomy
6. Demography
7. **Causes of increased population in India:**
Early marriage, high birth rate, lack of family planning awareness, advancement in medical sciences, and improved life expectancy.
8. Growth rate
9. **Population** – All the members of a given species occupying a specific area.
10. Drought
11. Barrier
12. **False.**
Mortality is the number of deaths per thousand of the population **per year**, not per decade.
13. True.
14. **Induced abortion** is the termination of an embryo or pregnancy by a trained doctor in a hospital, especially when a genetic disorder or medical reason is detected.

15. Rapid population increase leads to fast depletion of non-renewable fuels like coal and petroleum, which also cause pollution. Therefore, people must shift to **non-conventional energy sources** such as solar, tidal, nuclear energy, and biogas, and promote their use.

16. Illiteracy, children are a gift of God, sign of prosperity, due to high infant mortality, more helping hands for family income, do not accept family planning methods, desire for a male child, lack of recreation
