

Chapter

Basketball

1. Who invented basketball, and in which year? MAIN 2024
2. How was basketball initially played in its early days? SQP 2022
3. Answer the following :
 - (i) Explain the term “low dribble”.
 - (ii) What do you mean by “minuteman marking”?
 - (iii) Mention any three duties of the scorer in a basketball match. MAIN 2022
4. Define a fast break in basketball. How does it benefit a team? SQP 2022
5. Briefly explain the following terms : MAIN 2024
 - (i) Alternating Possession
 - (ii) Free Throw
 - (iii) Rebound
 - (iv) MantoMan Defense
6. Answer the following : SQP 2021
 - (i) Explain what happens when a team loses a game by default.
 - (ii) Define Ball Returned to the Back court.
 - (iii) What is the official signal for a Technical Foul?
 - (iv) Name any two international basketball tournaments.
7. Explain the following terms : MAIN 2023
 - (i) Held Ball
 - (ii) Double Foul
 - (iii) Double Dribble
 - (iv) Layup
8. Answer the following :
 - (i) When does a team’s control of the ball end?
 - (ii) How many time outs can a team get during the first half, second half, and

extra period?

(iii) Explain a team foul penalty situation in basketball. MAIN 2024

9. Answer the following : SQP 2021

(i) State six items of equipment needed to conduct a basketball match.

(ii) State any three duties of the coach.

(iii) When is the ball considered dead?

10. Answer the following : MAIN 2023

(i) What is a team foul?

(ii) Explain the term "Double Foul" in basketball.

(iii) Explain in brief the term "Held Ball".

11. List any three equipment needed to play a basketball match. MAIN 2024

12. What do you mean by Basket Interference in basketball? SQP 2021

13. Explain the three-second rule in basketball. Why is this rule important?
COMP 2023

14. During a basketball match between Springfield High and Oak wood Academy, Raj from Springfield jumps to take a shot. Just as he releases the ball, Karan from Oak wood hits Raj's arm, affecting his shot. The referee calls a foul on Karan. Define the term shooting foul in basketball. MAIN 2024

15. In a game between River dale School and Lake side High, Priya from River dale is dribbling the ball when Nisha from Lake side forcefully bumps into her, making her lose possession. The referee immediately calls a foul on Nisha. Define the term charging in basketball. SQP 2021

16. During a close game between Blue Ridge Academy and Silver Oak High, Aryan from Blue Ridge grabs the basketball and takes three steps without dribbling. The referee blows the whistle and calls a violation. Define the term traveling in basketball. MAIN 2023

17. During a game between Hilltop School and Meadow brook Academy, Arjun from Meadow brook is closely guarded. While trying to create space, he

extends his arm and pushes the defender away. The referee calls an offensive foul. What type of foul did Arjun commit, and what will be the consequence?

MAIN 2024

Solution

1. Basketball was invented by Dr. James Naismith in 1891 in the USA. He created the game as an indoor activity to keep athletes active during the winter.
2. In the early days, basketball was played with **40 players** in a gymnasium. The baskets were fixed on opposite walls, and after each goal, players had to **manually retrieve the ball** from the basket.
3. (i) **Low Dribble**: A dribbling technique used when an offensive player is closely guarded. The player keeps the ball low and uses their body to protect it from the defender.
(ii) **Minuteman Marking**: A defensive tactic where each player is assigned to guard a specific opponent throughout the game. This helps defenders closely monitor their assigned opponents and prevent scoring opportunities.
(iii) **Duties of a Basketball Scorer**:
 1. Records the number and names of players in each team.
 2. Keeps track of points scored during the game, including free throws.
 3. Records fouls, substitutions, time-outs, and their durations, signaling only during stoppages when the ball is dead.
4. **Fast Break**: A fast break in basketball is a quick offensive move where a team rapidly advances the ball down the court to score before the opposing defense is set.

Benefits:

1. Increases scoring opportunities by catching the defense off-guard.
2. Exploits defensive weaknesses and open spaces.
3. Generates excitement and momentum, boosting team energy.

5. (i) Alternating Possession: A method using an arrow on the scorer's table to indicate which team gets the next possession when a held ball or jump ball occurs, ensuring fairness by alternating possessions.

(ii) Free Throw: An unopposed shot taken from the foul line, awarded to a player who was fouled while shooting or under specific foul situations.

(iii) Rebound: The act of retrieving the ball after a missed shot, either offensively or defensively, to regain possession.

(iv) Man-to-Man Defense: A defensive strategy where each defender is responsible for marking and guarding one specific opponent throughout the game.

6. (i) Losing by Default: A team loses a game by default if it fails to appear on the court, does not have enough players to start or continue, or commits an offense leading to automatic forfeiture. The team is recorded with a 0–20 score, and the opponent is credited with 20 points.

(ii) Ball Returned to the Back Court: This occurs when a team that has possession in the front court illegally sends the ball back to the back court and touches it first. It is a violation, and the opposing team gains possession.

(iii) Technical Foul Signal: The referee signals a technical foul by forming a “T” with both hands—one hand held vertically and the other tapping it horizontally.

(iv) Two International Basketball Tournaments:

1. FIBA Basketball World Cup
2. Olympic Basketball Tournament

7. (i) Held Ball: Occurs when two opposing players simultaneously grab the ball and neither can gain clear possession. The referee restarts play with a jump ball.

(ii) Double Foul: Happens when two opposing players commit fouls against each other at the same time.

(iii) **Double Dribble:** A violation that occurs when a player either dribbles with both hands at the same time or stops dribbling and then resumes dribbling.

(iv) **Layup:** A close-range shot taken near the basket, usually while the player is moving toward the hoop.

8. (i) End of a Team's Control of the Ball:

A team loses control of the ball in situations such as:

- A rebound by the opposing team
- The ball being stolen by opponents
- Stepping out of bounds
- Committing a foul
- Committing a violation

(ii) Time Outs:

- Granted only when the ball is dead and the game clock is stopped.
- Maximum allowed:
 - First half: 2 per team
 - Second half: 3 per team
 - Each extra period: 1 per team
- Unused time outs do not carry over to the next period.

(iii) Team Foul Penalty:

- Occurs when a team commits four personal fouls.
- Marked in red color on the score sheet.
- Penalty: Opposing team is awarded two free throws.

9. (i) Equipment Needed for a Basketball Match:

1. Basketball
2. Game clock

3. Stopwatch
4. Scoreboard
5. Score sheet
6. Whistles
7. 30-second shot clock device
8. Foul markers (for players and teams)

(ii) Duties of a Coach:

1. Improve offensive and defensive skills of players
2. Ensure physical conditioning of players
3. Teach strategies and motivate/inspire the team

(iii) When the Ball is Considered Dead:

1. After a successful free throw
2. When the referee blows the whistle
3. When signaled by the official game clock
4. When a 24-second shot clock violation occurs

10. (i) Team Foul:

- Occurs when a team commits **four personal fouls** in a single period.
- Marked in **red color** on the score sheet.

(ii) Double Foul:

- Happens when **two opposing players commit fouls against each other at the same time.**

(iii) Held Ball:

- Occurs when **two players from opposing teams hold the ball simultaneously**, preventing either from gaining possession.

- Play is **resumed by a jump ball** called by the referee.

11. Three essential pieces of equipment needed to play a basketball match are:

1. **Backboard** – The surface mounted above the basket to support scoring attempts.
2. **Basketball** – The ball used to play the game.
3. **Basket Ring (Hoop)** – The circular hoop through which players aim to score points.

12. Basket Interference in Basketball:

Basket Interference is a violation that occurs when a player illegally touches the ball or the basket while the ball is in a scoring position. It happens in the following situations:

1. The player touches the ball or any part of the basket, including the net, while the ball is on the rim.
2. The player touches the ball while it is inside the cylinder extending upward from the rim.
3. The player reaches up through the basket from below and touches the ball.

This rule ensures fair play and prevents players from interfering with a ball that is in a legitimate scoring position.

13. Three-Second Rule in Basketball:

The three-second rule states that an offensive player is not allowed to stay in the key (paint) area, also called the free-throw lane, for more than **three consecutive seconds** while their team has possession of the ball.

Importance of the Rule:

1. Prevents players from gaining an unfair advantage by “camping” near the basket.
2. Encourages movement and spacing in the offensive play.

3. Maintains fair play and reduces congestion in the key area, allowing for smoother scoring opportunities and defensive play.

14. Shooting Foul in Basketball:

A **shooting foul** occurs when a defensive player makes **illegal physical contact** with an opponent who is in the act of shooting, thereby affecting the shot's attempt.

Consequences:

- If the shot is missed, the fouled player is awarded **free throws** (two or three depending on the shot).
- If the shot is made despite the foul, the player is awarded the points for the shot **plus one free throw** (commonly called an "and-one").

15. Charging in Basketball:

Definition: Charging is an **offensive foul** that occurs when a player in possession of the ball **forcefully collides with a defender who has established a legal, stationary position** on the court.

Key Points:

- The defender must be **set and stationary**.
- The offensive player is **responsible for the contact**.
- The result is **turnover of the ball** to the opposing team.

16. Traveling in Basketball:

Definition: Traveling is a **violation** that occurs when a player **takes more than the allowed steps without dribbling the ball or moves their pivot foot illegally** while holding the ball.

17. Offensive Foul in Basketball:

Type of Foul: Arjun committed an **offensive foul**, specifically a **pushing foul**, by using his arm to push the defender while trying to create space.

Consequence: The opposing team is **awarded possession** of the ball, and play resumes with them taking control.
