

PHYSICAL EDUCATION

Maximum Marks: 100

Time allowed: Two hours

1. *Answers to this Paper must be written on the paper provided separately.*
 2. *You will **not** be allowed to write during the first 15 minutes.*
 3. *This time is to be spent in reading the question paper.*
 4. *The time given at the head of this Paper is the time allowed for writing the answers.*
-
5. *Attempt **all** questions from **Section A** and **two** questions from **Section B**.*
 6. *The intended marks for questions or parts of questions are given in brackets[].*

Instruction for the Supervising Examiner

Kindly read aloud the Instructions given above to all the candidates present in the Examination Hall.

This paper consists of 19 printed pages and 1 blank page.

SECTION A (50 Marks)

(Attempt *all* questions from this *Section*.)

Question 1

[20]

Choose the correct answer to the questions from the given options.

(Do not copy the questions, write the correct answers only.)

- (i) The ability to change the direction of the body quickly and efficiently is known as:
 - (a) Speed
 - (b) Agility
 - (c) Balance
 - (d) Power
- (ii) People who find it difficult to gain weight in spite of eating a lot have the _____ body type.
 - (a) Endomorph
 - (b) Ectomorph
 - (c) Mesomorph
 - (d) Pseudomorph
- (iii) The condition which causes pain and stiffness in the bottom of the feet is:
 - (a) sprained ankle
 - (b) stress fracture
 - (c) plantar fasciitis
 - (d) shin splints

- (iv) To judge performances in sporting competitions, to ensure participants' safety, and to enforce the rules of the game is the responsibility of the _____.
- (a) Coach
 - (b) Commentator
 - (c) Sportsperson
 - (d) Match Official
- (v) The ability to cover maximum distance in minimum time is known as:
- (a) Endurance
 - (b) Speed
 - (c) Strength
 - (d) Flexibility
- (vi) An athlete discontinues training due to injury for a few weeks and notices a decline in his muscular endurance. Which principle of training does this situation demonstrate?
- (a) Specificity
 - (b) Progression
 - (c) Intensity
 - (d) Reversibility
- (vii) Which one of the following is a cause of *Malnutrition*?
- (a) Eating a variety of green vegetables.
 - (b) Lack of essential nutrients in the diet.
 - (c) Regular physical exercise.
 - (d) Drinking eight glasses of water a day.

(viii) The ability of a muscle or group of muscles to exert maximum force in a single effort is known as:

- (a) Muscular Endurance
- (b) Flexibility
- (c) Agility
- (d) Muscular Strength

(ix) **Assertion (A):** Overtraining can lead to fatigue and poor performance.

Reason (R): Adequate recovery is essential during training.

- (a) (A) is true and (R) is false.
 - (b) (A) is false and (R) is true.
 - (c) Both (A) and (R) are true and (R) is the correct explanation of (A).
 - (d) Both (A) and (R) are true, but (R) is not the correct explanation of (A).
- (x) Identify the component of physical fitness displayed in the image given below:

- (a) Agility
- (b) Strength
- (c) Flexibility
- (d) Speed

- (xi) Which component of physical fitness is primarily developed through long-distance swimming?
- (a) Muscular Strength
 - (b) Muscular Endurance
 - (c) Cardiovascular Endurance
 - (d) Balance
- (xii) Sports injuries often occur due to a lack of proper _____ before physical activity.
- (a) nutrition
 - (b) meditation
 - (c) warming up
 - (d) team selection
- (xiii) Which of the following best explains the *Principle of Specificity* in sports training?
- (a) Training should be carried out regularly without long breaks.
 - (b) Training should be designed according to the specific demands of the sport.
 - (c) Training load should be increased progressively over time.
 - (d) Training sessions should include a variety of enjoyable activities.
- (xiv) A coach designs a year-long training plan for athletes, dividing it into phases such as preparation, competition, and recovery, with specific goals for each phase. What is this systematic planning of training called?
- (a) Periodization
 - (b) Specificity
 - (c) Frequency
 - (d) Variance

(xv) **Assertion (A):** Warm-down helps the body return gradually to resting condition.

Reason (R): Light activity during warm-down maintains blood circulation.

- (a) (A) is true and (R) is false.
- (b) (A) is false and (R) is true.
- (c) Both (A) and (R) are true and (R) is the correct explanation of (A).
- (d) Both (A) and (R) are true, but (R) is not the correct explanation of (A).

(xvi) What is the minimum educational qualification to become a Coach at a National level in India?

- (a) B.P.Ed.
- (b) Diploma from National Institute of Sports
- (c) M.A. in Psychology
- (d) Ph.D. in Physical Education

(xvii) Match the following nutrients with their primary function:

	Column A		Column B
I.	Carbohydrates	1.	Growth and repair
II.	Proteins	2.	Source of energy
III.	Vitamins	3.	Insulation and protection
IV	Fats	4.	Protection against diseases

- (a) I-2, II-1, III-4, IV-3
- (b) I-1, II-2, III-3, IV-4
- (c) I-2, II-3, III-1, IV-4
- (d) I-4, II-1, III-2, IV-3

(xviii) Identify the injury shown below:

- (a) Abrasion
 - (b) Concussion
 - (c) Laceration
 - (d) Incision
- (xix) Which stage of growth is characterised by rapid hormonal changes and the development of secondary sexual characteristics?
- (a) Infancy
 - (b) Childhood
 - (c) Adolescence
 - (d) Adulthood
- (xx) Which career involves working with media, sponsorship, and marketing in sports?
- (a) Coaching
 - (b) Sports Management
 - (c) Officiating
 - (d) Teaching

Question 2

- (i) Define *physical fitness*. [2]
- (ii) Name *any two* career options available in physical education. [2]
- (iii) Name *any three* types of bone fractures. [3]
- (iv) State *any three* ways in which environmental factors influence physical fitness. [3]

Question 3

- (i) What is the *principle of overload*? [2]
- (ii) Distinguish between *growth* and *development*. [2]
- (iii) Aditi is a long-distance runner. She suddenly increases her weekly training load significantly without allowing her body enough time to adapt. After a few weeks, she experiences fatigue and joint pain. [3]
 - (a) Identify the principle of training that has been violated.
 - (b) State *one* immediate step that she should take for recovery.
 - (c) Suggest *one* way she can avoid such problems in future training.
- (iv) State *any three* psychological benefits of regular physical activity. [3]

Question 4

- (i) Define *coordination*. [2]
- (ii) What is a *balanced diet*? [2]
- (iii) State *any three* safety measures to prevent sports injuries. [3]
- (iv) Explain the *principle of recovery* in sports training. [3]

SECTION B (50 Marks)

(Attempt **two** questions from this Section.)

(You must attempt **one** question on each of the **two games** of your choice.)

CRICKET

Question 5

(i) Explain the following terms: [8]

- (a) Power play
- (b) Follow-on
- (c) Appeal
- (d) Leg Glance

(ii) (a) Before the finals of a district-level cricket competition, the match referee [9]

conducted a detailed inspection of the playing equipment provided by both teams. The referee carefully examined the cricket balls to confirm that their weight and circumference were within the official limits. He also checked the bats used by the players and ensured that the width of each bat followed the standard rules of cricket. Any equipment not matching the prescribed measurements was not allowed to be used during the match.

Answer the following questions based on the above situation:

1. What is the standard weight of a cricket ball used in men's cricket?
 2. What is the standard circumference of a cricket ball?
 3. What is the maximum permitted width of a cricket bat?
- (b) Mention *any three* situations in which the umpire declares a dead ball.
- (c) Explain the term LBW.

- (iii) (a) What is meant by a *maiden over*? [8]
(b) What is the difference between a *full toss* and a *wide ball*.
(c) State *any two* duties of the third umpire in a cricket match.
(d) What is meant by a *doosra* in cricket?

Question 6

- (i) Explain the following terms: [8]
(a) Yorker
(b) Ball Tampering
(c) Bouncer
(d) Hat-trick
- (ii) (a) During a zonal cricket championship, the ground staff prepared the field according to the official rules of the game. Before the toss, the match officials carefully measured the cricket pitch, checked the height of the wickets, and marked the bowling crease correctly so that the match could be conducted under standard conditions. [9]
Answer the following questions based on the above situation:
1. What is the standard length of a cricket pitch?
2. Mention the standard height of the wickets in cricket.
3. State the standard width of the bowling crease in cricket?
(b) Mention *any three* ways of dismissing a batsman.
(c) State *any three* conditions under which a no ball is declared.
- (iii) (a) What is a *super over*? [8]
(b) What is the difference between *byes* and *leg byes*.
(c) State *any two* responsibilities of the match referee.
(d) What is meant by a *free hit*?

FOOTBALL

Question 7

- (i) Explain the following terms related to the game of football: [8]
- (a) Offside
 - (b) Goal Kick
 - (c) Yellow Card
 - (d) Volley
- (ii) (a) Mention *any three* offences for which a penalty kick is awarded. [9]
- (b) Explain the procedure of a throw-in.
- (c) A school was selected to host the state-level football tournament. The coaches and technical officials checked all the equipment and markings on the field. Answer the following questions based on the above situation:
- 1. What is the standard width between two posts of a football goalpost?
 - 2. What is the standard height of a football goalpost from the ground to the crossbar?
 - 3. What are the dimensions of the penalty area in football?
- (iii) (a) What is *zonal marking* in football? [8]
- (b) What is *heading*?
- (c) Explain the term *wall pass*.
- (d) Explain the term *optional mark* in football.

Question 8

- (i) Explain the following terms related to the game of football: [8]
- (a) Corner Kick
 - (b) Extra Time
 - (c) Red Card
 - (d) Dribbling
- (ii) (a) Mention *any three* offences for which a direct free kick is awarded. [9]
- (b) Describe the procedure for taking a kick-off.
- (c) With reference to the football field, answer the following questions:
- 1. What are the dimensions of the goal area in football?
 - 2. What is the distance of the penalty spot from the goal line?
 - 3. What is the radius of the centre circle in football?
- (iii) (a) What is *man-to-man marking*? [8]
- (b) Explain the term *advantage* in football.
- (c) Explain the role of a goalkeeper in football.
- (d) Explain the term *nutmeg*.

HOCKEY

Question 9

- (i) Explain the following terms related to the game of hockey: [8]
- (a) Scoop
 - (b) Green Card
 - (c) Obstruction
 - (d) Danger Zone

- (ii) (a) Answer the following questions based on the rules of hockey: [9]
1. What is the total duration of a standard hockey match?
 2. Into how many quarters is a hockey match divided?
 3. State the standard length and breadth of a hockey field.
- (b) Mention *any three* protective equipment worn by a goalkeeper.
- (c) Define a *dangerous play* foul in hockey.
- (iii) (a) Explain the term *long corner*. [8]
- (b) What is meant by a *penalty stroke*?
- (c) Explain the term *dribbling* in hockey.
- (d) Explain the role of an umpire in a hockey match.

Question 10

- (i) Explain the following terms related to the game of hockey: [8]
- (a) Flick
 - (b) Yellow Card
 - (c) Undercutting
 - (d) Advantage
- (ii) (a) Explain the procedure of substitution in hockey and state the number of substitutions permitted. [9]
- (b) What is meant by *backstick foul* in hockey?
- (c) During a state-level hockey competition, the coach and the technical officials rechecked the important measurements on the field, the centre line, the height and width of the goalposts, and verified the radius of the shooting circle before approving the field for competition.

Answer the following questions based on the given situation:

1. How far is the 23-yard line marked from the backline in hockey?
 2. State the standard height and width of a hockey goalpost.
 3. What is the radius of the shooting circle in hockey?
- (iii) (a) Explain the term *16-yard hit* in hockey. [8]
- (b) What is meant by a *bully* in hockey?
- (c) Explain the term *centre pass*.
- (d) State the number of officials required in a hockey match.

BASKETBALL

Question 11

- (i) Explain the following terms related to the game of basketball: [8]
- (a) 24 seconds
 - (b) 8 seconds
 - (c) Overtime
 - (d) Substitution
- (ii) (a) Explain the term *free throw* and state when it is awarded. [9]
- (b) With reference to the rules of basketball, answer the following questions:
1. How many players from each team participate in the jump ball?
 2. Into how many quarters is a basketball match divided?
 3. How many points are awarded for a free throw in basketball?
- (c) Define *pivot* and its importance in basketball.

- (iii) (a) Differentiate between a *lay-up shot* and a *jump shot* in basketball. [8]
- (b) Define the term *rebound*.
- (c) What is meant by a *travelling violation* in basketball?
- (d) Explain the term *time out* in basketball.

Question 12

- (i) Explain the following terms: [8]
- (a) 5-seconds rule
- (b) 3-seconds rule
- (c) Backcourt violation
- (d) Held ball
- (ii) (a) Mention *any three* responsibilities of the scorer in basketball. [9]
- (b) Mention *any three* types of violations in basketball.
- (c) A school was selected to conduct the district-level basketball championship, and the sports committee began preparing the court a day before the matches. The officials carefully measured the length and width of the court, checked the radius of the centre circle, and confirmed the duration of each quarter to ensure that the competition would follow official basketball rules.
- Answer the following questions based on the above situation:
1. What are the standard dimensions of a basketball court?
 2. What is the radius of the centre circle in basketball?
 3. What is the duration of each quarter in a standard basketball match?

- (iii) (a) Differentiate between *man-to-man defense* and *zone defense*. [8]
- (b) What is meant by a *fast break* in basketball?
- (c) A player dribbles the ball, stops, and then starts dribbling again. What violation would the referee decide in this case?
- (d) Explain the term *screening*.

VOLLEYBALL

Question 13

- (i) Explain the following terms related to the game of volleyball: [8]
- (a) Libero
- (b) Screening
- (c) Antennae
- (d) Side-out
- (ii) (a) State *any three* conditions for a legal service in volleyball. [9]
- (b) During a regional volleyball championship, the organising committee arranged a practice session for all participating teams before the tournament began. The technical officials inspected the playing area, ensured that the court markings and equipment followed the official volleyball rules, and confirmed the correct marking of the attack line before allowing the teams to practice.
- Answer the following questions based on the above situation:
1. What are the standard dimensions of a volleyball court?
 2. What is the standard height of the net for men in volleyball?
 3. What is the distance of the attack line from the centre line in volleyball?
- (c) Describe the *back-row attack rule* in volleyball.

- (iii) (a) What is meant by a *joust* in volleyball? [8]
(b) Define *attack hit*.
(c) Explain the restriction on a back-row attack.
(d) What is meant by an *ace* in volleyball?

Question 14

- (i) Explain the following terms: [8]
(a) Rotation
(b) Double hit
(c) Technical time-out
(d) Overlap
- (ii) (a) State *any three* faults committed during service. [9]
(b) State the restrictions on the Libero player.
(c) Answer the following questions based on the rules of volleyball:
1. What is the standard length and width of a volleyball net?
2. What is the standard height of the net for women/girls in volleyball?
3. How many players are allowed on the court from one team in volleyball?
- (iii) (a) What is meant by a *block* in volleyball? [8]
(b) Explain the role of a setter in volleyball.
(c) Differentiate between a *Ball In* and *Ball Out*.
(d) Explain the *substitution rule* in volleyball.

BADMINTON

Question 15

(i) Explain the following terms related to the game of badminton: [8]

- (a) Let
- (b) Smash
- (c) Drive
- (d) Drop shot

(ii) (a) During an inter-school badminton match, the score in the first game between Rahul and Aman reached 20–20. Both players continued scoring alternately, making the game very competitive. Finally, Rahul won the game with a score of 30–29. [9]

Answer the following questions based on the above situation:

1. How many points are normally required to win a game in badminton?
2. What is the term used when the score becomes 20–20?
3. What is the maximum possible score in a badminton game?

- (b) State the *service court rule* for even and odd scores in badminton.
- (c) Explain the importance of *footwork* in badminton.

(iii) (a) What is the purpose of the short service line? [8]

- (b) Describe a *clear shot*.
- (c) What will be the umpire's decision when the shuttle touches the net but lands in the correct service court during service.
- (d) State the full forms of BAI and BWF.

Question 16

(i) Explain the following terms: [8]

- (a) Carry
- (b) Kill
- (c) Net Shot
- (d) Flick Serve

(ii) (a) State *any three* duties of an umpire in badminton. [9]

- (b) Name *any three* types of strokes used in badminton.
- (c) During the semi-finals of a district badminton tournament, the players reported to the equipment inspection desk before their match. The chief referee checked whether the net was fixed at the correct height and carefully examined the shuttlecocks and rackets brought by the players. One shuttlecock was replaced because it did not meet the official weight standards, and the players were reminded to use equipment approved under the rules of badminton.

Answer the following questions based on the above situation:

1. What is the standard height of the badminton net at the centre?
2. Mention the standard weight of a badminton shuttlecock.
3. State the maximum length of a badminton racket.

(iii) (a) What is meant by the *long service line*? [8]

- (b) Describe a *drive shot* in badminton.
- (c) What is a *wood shot* in badminton?
- (d) State the total length and breadth of a standard badminton court.
